EDUCATION

KIET GROUP OF INSTITUTION

Bachelor of technology in Computer Science and Engineering

- Affiliated to A.K.T.U. locknow
- Percentage : **72.00**

Delhi-NCR , Ghaziabad ,UP

Nov 2022 – Present

Institute of Engineering and Rural Technology (I.E.R.T.)

Diploma in Electrical Engineering

- Board : B.T.E.U.P.
- Percentage : **84.14**

Prayagraj, Uttar Pradesh

Aug 2019 – Sep 2022

PROJECTS

Frooms— MERN Stack

- **Revolutionizing dining experiences:** Instantly locate nearby affordable messes, complete with pricing details and real-time distance calculations from your current location. Implemented JWT authentication and React Context API for state management
- **Find your ideal room hassle-free:** Filter by budget, discover special offers, select single, double, or triple occupancy, and locate nearby accommodations with detailed facilities and distance from campus. Implemented secure online payments using Razorpay API, ensuring smooth transactions.

ScriptedMind - Blogging Platform (Full-Stack)

- **Built a dynamic blogging web app** supporting **real-time post creation, user authentication, and interactive UI**.
- Implemented JWT authentication for secure logins and session handling, reducing unauthorized access by 100%.
- **Tech Stack:** React.js, Node.js, Express.js, MongoDB, JWT authentication.

Samvaad - Real-time Chat App (Backend)

- **Designed a scalable backend** for a real-time chat application with **WebSockets, group chats, and secure messaging**.
- **Tech Stack:** Node.js, Express.js, MongoDB, Socket.io, JWT authentication.

MyCart - E-Commerce Shopping Page (React.js)

- **Developed a responsive shopping website** with **product catalog, filtering, and cart management** for a seamless user experience.
- **Optimized performance** by implementing lazy loading and state management using React Hooks.
- **Tech Stack:** React.js, Bootstrap, CSS, API integration.

INTERNSHIP

Vocational training

22 August 2023 - 22 September 2023

Hindalco Industries Limited

Sonbhadra, Renukoot. [Link](#)

- Developed a QR Code generator and scanner using Oracle APEX for tracking over 10,000 monthly items.
- Automated log generation for product scans, reducing manual errors by 90%.
- Visualized data using charts for logistics teams, boosting reporting efficiency by 50%.

TECHNICAL SKILLS

- **Languages:** Java, JavaScript (ES6+), C, SQL, Python **Frontend:** React.js, HTML5, CSS3, Bootstrap, Redux
- **Backend:** Node.js, Express.js, REST APIs, MongoDB **Tools:** Git/GitHub, Docker, AWS EC2/S3, Postman, VS Code
- **Soft Skills:** Communication, Problem-Solving, Team Collaboration, Adaptability.

ACHIEVEMENTS & CERTIFICATIONS

- **AWS cloud foundation** - Issued: Aug 2024 **SQL (Advanced)** - HackerRank Certification - Issued: Mar 2025
- **SQL (Intermediate)** - HackerRank Certification - Issued: Mar 2025 **JavaScript** - HackerRank Certification - Issued: Mar 2025
- **CSS** - HackerRank Certification - Issued: Mar 2025 **Java** - HackerRank Certification - Issued: Oct 2024
- **NPTEL Cloud Computing** - Elite Silver (Top 5%) - Issued: Oct 2025

EXTRACURRICULAR ACTIVITIES

- Problem solving on leetcode.
- Video Editing.
